

# Creating media—Audio production

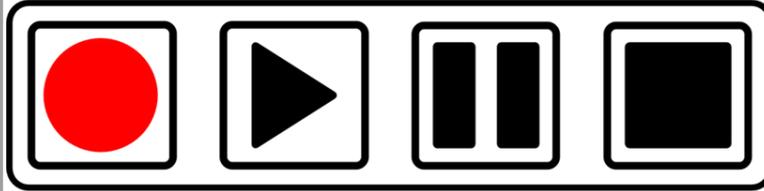

## Innovation

### Prior Knowledge

Year 3: Creating media – Stop-frame animation.

Year 2: Creating media – digital photography and music

Year 1: Creating media – digital writing and painting

### My Component Knowledge:

Lesson 1: I can use a computer to record sound.

Lesson 2: I can explain that audio recordings can be edited to be improved.

Lesson 3: I recognise that there are different aspects to recording a podcast.

Lesson 4: I can apply my audio editing skills independently.

Lesson 5: I can combine audio to enhance my podcast project.

Lesson 6: I can evaluate the editing choices that I have made.

### My Composite Knowledge:

I understand that producing and publishing audio is part of a long process that includes recording and editing.

### My Powerful Knowledge:

I know how to use technology to make audio recordings and can edit them to improve the quality. Audio editing can include trimming sounds as well as layering them.

### Key Vocabulary

Tier 1: sound, microphone, speaker, headphones, edit, record, save

Tier 2: audio, podcast, trim, align, layer, playback, selection, load, evaluate, feedback

Tier 3: input device, output device, import, export, MP3

What devices can be used to record audio?
