

Animals Including humans

Evolution

Prior Knowledge:

In EYFS, Children would have had opportunities to make observations of animals and will know about similarities and differences in living things.

Future Knowledge:

In year 2 you learn that animals, including humans, have offspring which grow into adults

Find out about and describe the basic needs of animals for survival. Describe the importance of exercise, healthy eating and hygiene

My Component Knowledge:

Lesson 1: I can identify different types of animals and talk about how they are grouped.

Lesson 2: I can Identify mammals and their features

Lesson 3: I can compare birds and reptiles by their features.

Lesson 4: I can describe the life cycle of an amphibian.

Lesson 5: I can identify what different animals eat.

Lesson 6: I can talk about different types of animals and what makes them special.

My Composite Knowledge:

I will learn about the 5 groups of animals animals use to classify animals: mammals, birds, fish, amphibians, reptiles.

My Powerful Knowledge:

I will learn that animals are grouped by their features, and different animals eat different types of food.

Key Vocabulary

Tier 1: pet, animal

Tier 2: vertebrates, Fish, amphibian, mammal, bird, reptile, human, senses, smell, sight, touch, taste, hear, body,

Tier 3: omnivore, carnivore, herbivore.

What makes a
Polar bear a
mammal?

What do living
things use
their noses for?

What is the diet of
animals that only eat
meat?
