## A note from the Head

Dear Parents and Carers,

It has been lovely to see the children back this week, we hope you all had a restful Easter break. As always they have settled back into their learning and are looking forward to the term. Thank you to Mr Walter and Miss Parsons who accompanied the Year 5 children on their residential to Skern Lodge, we really appreciate staff giving up their own time to support these trips. Thank you also to the parents that have e-mailed in their thanks, staff are so grateful to receive thanks and positive feedback.

Mrs Manning and I visited them on Tuesday and, as always they never cease to amaze us with their teamwork and determination. They mixed really well with their peers from Kings Nympton, which is always lovely to see. It is such a great opportunity to overcome any fears or worries they may have, although having seen them on the high ropes; I'm not sure they have any!

Year 3 really enjoyed their visit to RHS Rosemoor in Great Torrington. They learnt about plants with interactive workshops and will be planting their beans in the school garden soon. Well done Year 3.

This afternoon sees our Year 3 and 4 classes taking part in their school football tournament that was postponed from last term. They were all very excited this morning!

We have so many exciting events happening this term; Year 2s are out next week to West Town Farm, Owls are visiting Bickleigh railway centre, our Squirrels will be visiting Quince Honey Farm, Year 5 have two trips coming up; to the Exeter Synagogue and Waitrose, and I know lots of the children are looking forward to the whole federation trip to the theatre to see Demon Dentist in May. That is just the start!

Thank you to the parents who have e-mailed in with their kind messages of support with regard to the industrial action next week. Staff really have appreciated these, so thank you for taking the time to do this. It is much appreciated.

Have a lovely weekend

Mrs V Fenemore, Executive Headteacher

# THE LEARNING ZONE

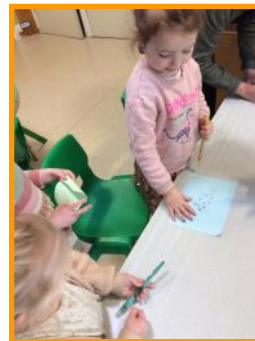

SHARING OUR LEARNING AND A MESSAGE FROM THE TEACHERS

## Nursery (Squirrels & Hedgehogs)—Mrs Stapley

A wonderful start to the Summer term. It has been lovely to see the children again after the holidays and they have been full of chat about what they have been up to. This week we started our topic 'Mad about Minibeasts!' So far we have been making bugs using play dough, sorting different coloured insects and sharing lots of stories and non fiction books about our favourite bugs! The children have also been painting their portraits for our class display. The children have been having a fantastic time in the nursery garden- looking for insects, building structures, playing with the water and hula hooping!

Have a super weekend! The Nursery Team

## Owls Class—Mrs Bourner

It has been lovely to see the children come back to school with such excitement and a renewed enthusiasm to learn this week. They have once again embraced all that has been on offer. We would like to welcome Darcie to Owls Class, the children have all been so welcoming and we hope you have enjoyed your first week with us.

As part of our new topic, the children have thoroughly enjoyed listening to the story 'The Naughty Bus!'. They have made physical maps of the journey The Naughty Bus took, particularly enjoying the part where The Bus drove through a plate of baked beans! As part of their writing task, they have made WANTED posters explaining what the bus did that was a little bit cheeky! They have begun making their own Naughty Buses and vehicles and we can't wait to find out what they will do on their imaginary journeys over the next few weeks.

In maths, the children have reinforced their understanding of the number 10 and have been practising using 10 frames to show different ways to compose 10, and look at how many more they need to make 10 by playing games.

As part of our RE topic the children talked about their favourite stories and authors and we have enjoyed listening to some of these over the course of this week. ***For show and tell next Friday we would like it if the children could bring in a photograph of their favourite type of transport, of them enjoying a journey on a particular type of transport or a toy to show how they enjoy travelling.***

Have a lovely weekend Owls and let's hope we see some more of that lovely sunshine.

SHARING OUR LEARNING AND A MESSAGE FROM THE TEACHERS

## Year 1—Mrs Rowcliffe & Mrs Keast

A busy first week back in Year One! In English we began our sequence based on 'Hidden World: Ocean'. We began by writing about animals we are already familiar with, recording some simple facts in sentence form. We have also talked about our experiences of sea animals before learning about some of Sri Lanka's native animals. To end the week, we learned some new vocabulary from the text.

In maths this week we began learning about multiplication and division. We have been counting in 2s, 5s and 10s and then focused on sharing a quantity of objects into even and uneven groups. We have enjoyed some opportunities to learn outside, making the most of the good weather this week.

In Geography we began our sequence on Sri Lanka. We thought about where Sri Lanka is in the world and what we would see on a visit there. In English we have watched some videos about native animals – can you remember what they were?

In Computing this half term we are learning about robots and will be experimenting with programmable toys such as BeeBot and BlueBot. We focused on understanding what the various buttons do and how we can input a command.

In Art we have enjoyed going outside to create some Andy Goldsworthy inspired pieces of artwork.

## Year 2—Miss Jones

It's been a great first week back at school and we have been making the most of the fleeting sunshine! In English we have started our new learning on the text dino dinners. We have read and responded to the text before moving on to look at representing vocabulary and structuring a glossary.

In Maths we have explored fractions and learned about parts and wholes. We identified halves and quarters before finding a fraction of an amount by using manipulatives, linking to our prior knowledge of division.

In Geography we started our new sequence about weather and the seasons. We completed our elicitation booklets linking to what we know about hot and cold weather patterns in different environments. In Science we have started our final sequence on the uses of everyday materials and thought about different objects and suitable materials that could be used to make them. In Art we explored our new focus artist and artwork and annotated our initial ideas in our sketchbooks. We will be looking at aboriginal art and creating our own fish sculptures in the coming weeks.

Have a good weekend everyone.

## Year 3—Mr Slocombe

It has been lovely to welcome Year 3 back this week. They have had a super week and are really showing their enthusiasm for learning. We have worked hard on our mass and capacity sequence in maths, recording the mass of a variety of objects using different scales.

In English, we have started our unit around the text *Monsters: An Owner's Guide*. We have focused on the vocabulary in the text and the purpose of each section. To start the sequence, we wrote a set of instructions around how to make a jam sandwich.

We have learnt about the location of Europe and Poland in geography, considering the difference between continents and countries. In science, we have begun an investigation to test the necessary growing conditions for plants. We have a range of conditions to test the impact of light and water on how much a plant will grow.

We had a fantastic time visiting Rosemoor, pictures on page 9.  
Have a wonderful weekend, see you all on Monday!

## Year 4—Miss McLean

Year Four have returned to school for the Summer Term with a great attitude towards their learning! They have tackled their elicitation tasks this week with resilience and are looking forward to starting our new learning sequences.

We have continued our learning on decimals in maths by making a whole with tenths and hundredths as well as flexibly partitioning numbers to two decimal places. We have used place value counters, hundred squared and part-whole models to represent our calculations.

In English, we discussed the meaning of the title of our new book 'An anthology of intriguing animals'. **Can you remember what 'intriguing' means?** We collected our ideas about the effect that this book has on the reader and came up with the three words inform, intrigue and inspire.

We are beginning learning about North America in geography and used atlases to label a map of the continent with all of its countries. We have also started new sequences in science, RE, PSHE, music, computing and art.

The children thoroughly enjoyed taking part in their football tournament this afternoon and took the opportunity to show off their fantastic team work skills.

Have a wonderful weekend!

## Year 5—Mr Walter

It has been a fantastic first week back to start our final term of Year 5!

Everyone represented themselves and the school brilliantly on our residential at Skern Lodge. All of the activities allowed us to meet new challenges, face our fears, develop teamwork and have fun. All of the instructors were fantastic and supported us to do activities that included rafting, kayaking, high ropes, tunnels and more.

Well done to everyone, I hope this experience will live long in your memory. You can see more photos on page 8.

Have a relaxing and enjoyable weekend.

## Year 6—Mr Davis

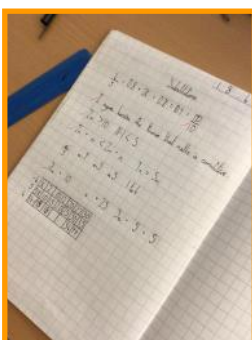

I cannot believe we are already in the Summer term - and we all know that the next few weeks are going to fly by. In English this week, Year 6 have started their first sequence of the Summer term - a book called Shackleton's Journey. The children have read the story, tried their hand at some creative writing and really delved into how the author presents information to his reader.

In maths, the children have continued to learn maths through algebra. This week, they have learnt about the differences between expressions, formulae and equations.

In Art, this half term's sequences concerns architecture and structures. The class elicitation was to use some familiar building materials to see how high a structure they could make. This is to prepare the children for what it takes to become an architect and have to consider how buildings are actually designed and built.

In RE, the children's new sequence is about why some people believe in a God whilst some do not. They have learnt and can explain three new terms from their first lesson - theists, atheists and agnostics. We also discussed how these terms can be combined.

Finally, in ICT, the children have started to learn about video editing. We started the sequence by looking at some short video extracts ranging from Tom & Jerry to Buster Keaton to James Cameron. The class then had a go at making their own thaumatrope as the most basic form of animation. Have a lovely weekend!

# YEAR 3 RHS ROSEMOOR

THURSDAY 20TH APRIL 2023

Year 3 had an excellent time visiting Rosemoor yesterday...

The children took part in workshops during the morning, learning more about germination, growing and flowering. The children enjoyed lots of hands on experiences that have enhanced their learning in the science curriculum.

We enjoyed walking through the gardens and exploring its different areas. The children were, as always, beautifully behaved and were a credit to the school.
