

# ICT—Spreadsheets

## Construction

### Prior Knowledge

**Year 3** - You learned about branching databases in a data and information unit. You learned to select and use a variety of software to accomplish a specific goal involving data. You learned to do this safely and responsibly.

**Year 4**— You learned about data logging. You learned to work with various inputs and outputs and how certain software reacts to this.

**Year 5**— You learned about flat-file databases. This unit taught you how search technologies select and rank results. You also learnt to be discerning when evaluating these results.

### My Component Knowledge:

- Lesson 1: Collecting Data
- Lesson 2: Formatting a Spreadsheet
- Lesson 3: What's the formula?
- Lesson 4: Calculate a duplicate
- Lesson 5: Event planning
- Lesson 6: Presenting data

### My Composite Knowledge:

I can use spreadsheet software to manipulate, calculate and present data effectively.

### My Powerful Knowledge:

I can use software and its features effectively and efficiently to complete a variety of tasks. I can also see the benefits of this in real world situations.

### Key Vocabulary

**Tier 1:** calculate, order, operation, organise, table

**Tier 2:** data, structure, spreadsheet, graph, input, output, chart, presentation,

**Tier 3:** format, cell, duplicating, shortcut, references,
